MEMORANDUM FOR THE RECORD

1. General C. P. Cabell, USAF (Ret), called General Carter. General Cabell stated that, in connection with the project he was working on, (Threat Panel, Project FORECAST) that he had spoken with Mr. Kent per General Carter's suggestion, that Mr. Kent had approached the Director with General Cabell's request, and that the Director had disapproved it with General Cabell's ground rules but had said he would like the Agency to have the opportunity to comment on the study when completed if they saw fit at that time.

2. General Cabell was calling with another request. He stated that General Gordon Saville is heading up the Limited War Panel of the Project and asked General Cabell to call the Agency and ask if somebody from the Agency who is experienced in that field -- Limited War, Subversive Warfare, counterinsurgency, etc. -- might be made available to sit with General Saville on about three or four of his panel meetings "to listen to things that are going on and offer suggestions" without any responsibility of the DCI, but some man who is knowledgeable and could guide the panel and prevent them from going off down blind alleys. This man, who need not be identified as an Agency employee, would attend three or four meetings of one or two days' duration, in the Los Angeles area, during period of June and July, and possibly early part of August.

3. General Carter said he would look into the situation and call General Cabell back but that the answer might be the same as on the previous request. General Cabell said he would like to submit that he felt this might be different in that this is not an intelligence estimative job.
